

M509 Scientific Communication
(1 credit)
Spring 2018
Tuesdays 5-7 PM (1st 8 weeks)

Learn how to communicate effectively with your peers and colleagues. Each week students will work independently and in groups to sharpen their skills in scientific communication and presentations. Course will be geared toward first and second year graduate students. Upper level undergraduates headed for research are also welcome.

How do I initiate a collaboration?

Meeting coming up- what about that abstract?

What is the difference between a CV and a resume?

Should I submit for a talk or a poster?

Elevator Going Up:
Talking to lay people about your science
