

# COASTAL OCEAN PROCESSES

## Summer Research Experiences for Undergraduates

Program Dates: June 8 - Aug 14, 2020

**USC**  
**Dornsife**

College of Letters, Arts  
and Sciences

Join us for a 10-week research experience like no other. Students are paired with faculty mentors and near-peer mentors to conduct independent but guided research at the USC Wrigley Marine Science Center on Catalina Island ...the perfect setting to study diverse marine ecosystems.

Gain: research experience, hands-on training in the lab, special seminars and discussions on coastal research, professional development, networking with a global scientific community, opportunities to explore Catalina Island, stipend, housing, travel costs.

**Application window: Jan 1 through Feb 14th, 2020.** For the application, visit: [wrigley.usc.edu/reu/](http://wrigley.usc.edu/reu/)

Complete application packets will include:

- Application
- Two letters of recommendation
- Transcript(s)
- One page essay

**Who should apply?** You! We welcome applications from students who:

- completed one year of biology and chemistry
- will be enrolled as an undergraduate in Fall 2020
- are U.S. citizens, nationals or permanent residents of the U.S.

We especially encourage students from underrepresented groups in STEM fields to apply! Special consideration will be given to students who attend a university or college in Southern California and/or institutions with limited research training opportunities, but we encourage applications from all eligible students nationwide.

### Questions?
